

## Greenwich Public Schools

### On-Call Contract

Greenwich, CT

#### **The School District:**

The school system consists of eleven elementary schools, three middle schools and one high school with a combined area of approximately 1,400,000 sq. ft.

The high school is one of the largest in Connecticut at approximately 500,000 sq. ft., which is comprised of thirteen buildings. The campus is served by a central plant consisting of gas absorption chillers and gas fired water boilers, which distribute hot and chilled water throughout the campus for heating, cooling and dehumidification.

Middle schools are generally 100,000+ sq. ft. and elementary schools are generally 50,000+ sq. ft.

#### **Services Provided:**

Landmark Facilities Group (LFG) have been providing MEP/FP engineering consulting and design services for Greenwich Public Schools since 2015. The services have included:

- HVAC assessment and recommendation reports
- Damage assessment reports
- Central plant design
- Cooling tower design
- Building Management System design
- Emergency generator
- Emergency lighting design
- Domestic water and sanitary systems design
- Fire protection systems design
